

How to Identify the Touch Screen on a RazorGage

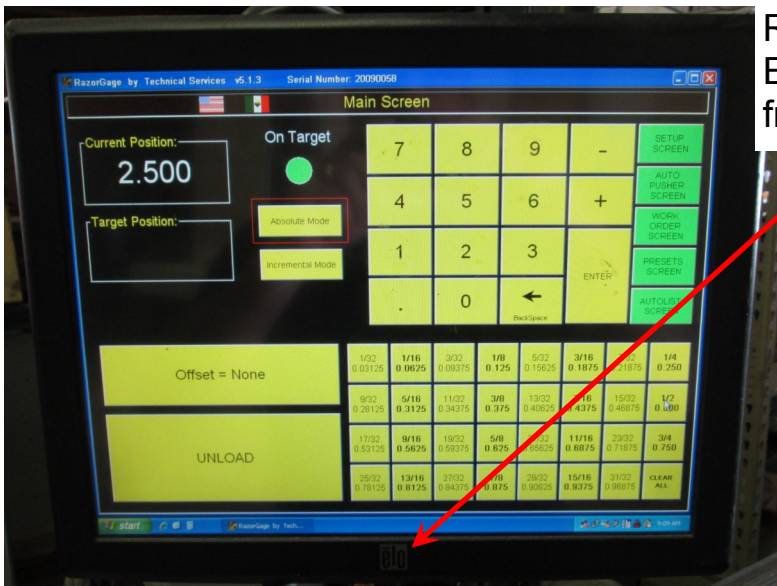

Ausun 15" Touch Screen - Replace with NEC 17" RGX00409

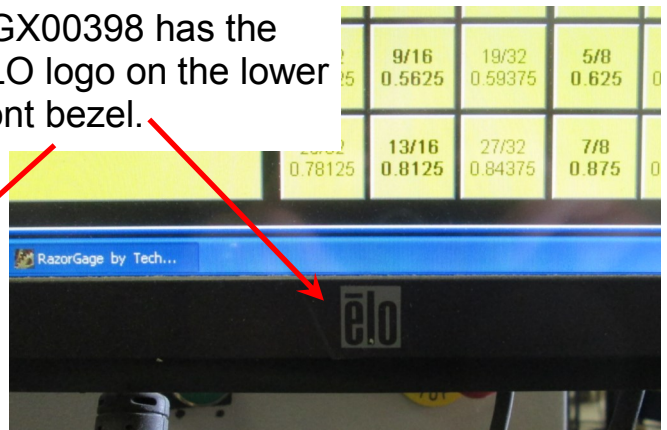

The Ausun 15" monitor has no markings on the front but there is a green LED located here.

The Ausun has a label like the one above affixed to the back.

ELO Monitor RGX00398 has the ELO logo on the lower front bezel.

The NEC 17" Touch Screen RGX00409 has NEC printed on the upper left corner and the buttons are mounted in a module located on the bottom center of the bezel.

Monitors may be purchased on our website: www.razorgage.com. Click the Replacement Parts button then click the image to enter the RazorGage store.
