Installing a Setup File RazorGage Prepared for You

If you want to install the PLP software on multiple PCs or if you want to transfer successful settings from one installation of PLP to another on a different PC, go to the folder shown above, double click it, and right click on the file named PLPDef.mdb and choose COPY. Go to the corresponding folder on the other PC and paste the copied file into it replacing the existing one. This will transfer all settings from one PLP installation to another.
