Microlynx Encoder Wiring

⚠ **Danger** Live wires
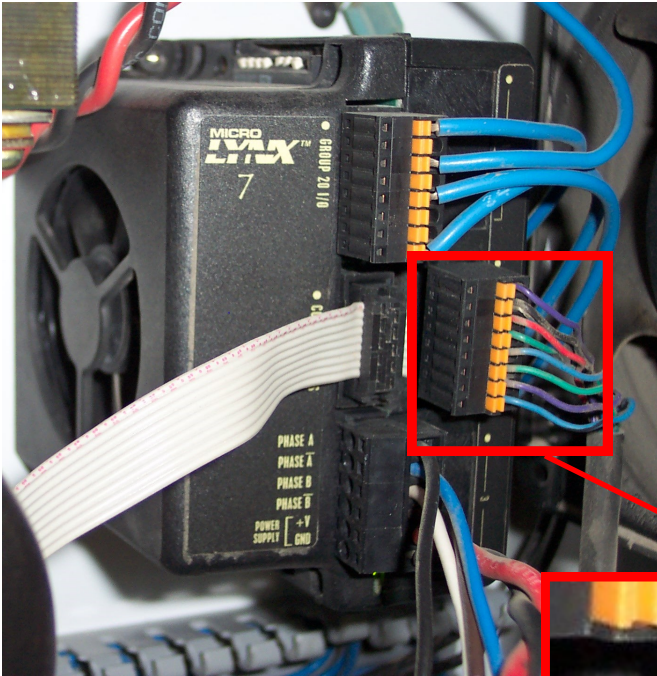

Wire colors shown in picture are for rotary encoder. For SIKO linear encoder see colors listed at left.

Linear Encoder
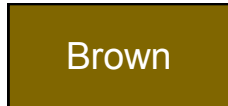

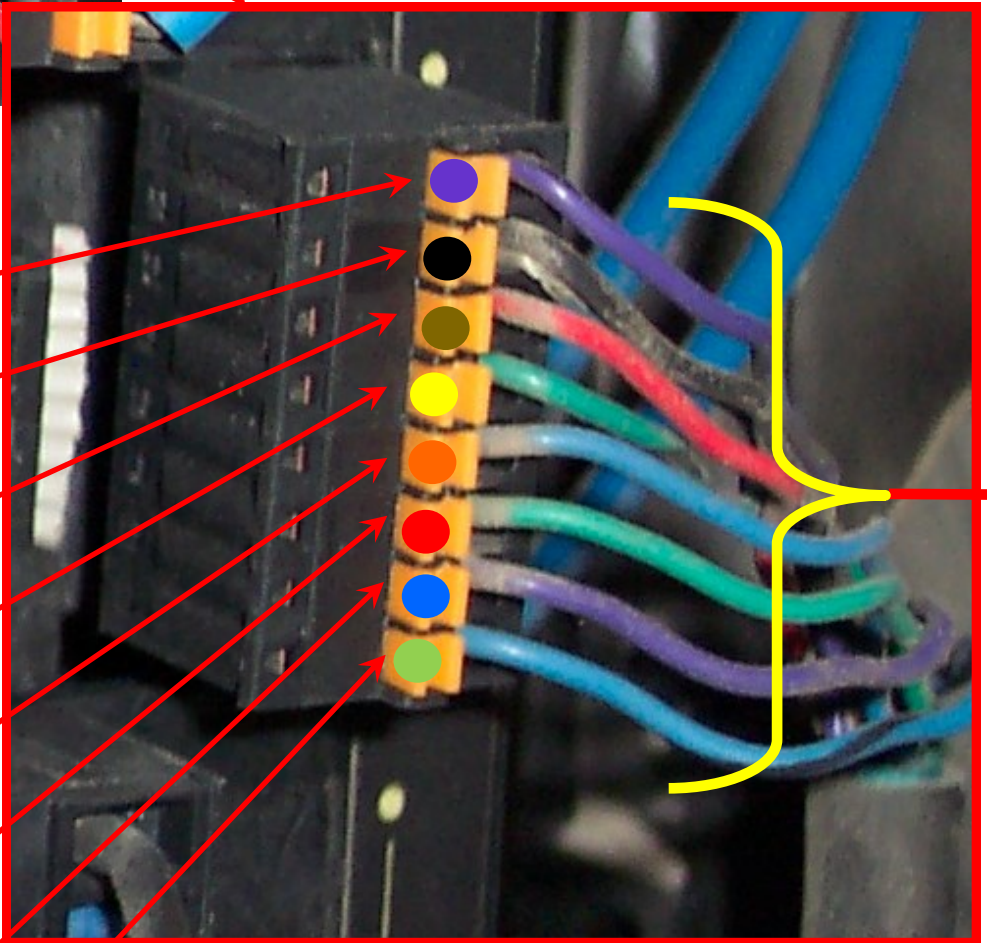

- Violet
- Black
- Brown
- Yellow
- Orange
- Red
- Blue
- Green

Check to make sure the correct color wire is in the correct terminal. Press the orange button to release a wire. Remove and re-insert each wire ensuring that the terminal is clamping on copper and not clamping on the insulation.
