

Un Check this box and then click either LEFT or RIGHT. Click SAVE CHANGES. When the machine homes at the opposite end it will say that it needs to be indexed. See page 2.

Since you have changed the homing direction of the RazorGage, you will need to check this box before continuing the Index Wizard.

Index Locator

Invert Direction

For this procedure, you will need a 4mm 'Allen' wrench and some sort of 'cheater bar'. Locate and remove the plastic plug on the side of the gearbox. Press Start and the program will walk you through each step.
